Election/Restrictions

1. Claim 22 is generic to a plurality of disclosed patentably distinct species comprising genistein or quercetin. Claim 31 or 38 is generic to a plurality of disclosed patentably distinct species comprising a combination of (i) genistein, or quercetin; and (ii) a compound selected from the group consisting of an anti-inflammatory agent, a retinoid, a glycocorticoid, an antioxidant, a comedolytic, and an antibacterial agent, respectively. Applicant is further required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Patentably distinct markush species(see MPEP 803.02) are independent inventions, *In re Webber*, 198 USPQ 328, *In re Haas*, 198 USPQ 334. Divisional applications may be filled under 35 USC 121, as a result of an office requirement for an election of a patentably distinct species as made herein. *In re Joyce*, 115 USPQ 412. This satisfies the “ patentably distinct” criterion since the examiner is not of the opinion that various species are obviously unpatentable over one another and each species (as noted above) is capable of independent manufacture, use, and sale, with the other components of the claimed formulations. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

It is noted that a reference to one combination of drugs would not be a reference to another combination of drugs under U.S. C. 103. Even if they are under same classification, the claims read on a multitude of combinations of drugs which would

require many field of searches that would be an undue burden on the examiner.

Therefore, election requirement for examination purposes is proper.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. A telephone call was made to Mr. Ruben on August 12, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

Art Unit: 1614

4. Claims 22-50 are subject to election requirement. PLEASE NOTE: The claims 43-49 has been renumbered to claims 44-50 according to Rule 126 since the claim no. 43 has been used twice.
